

Innovation Express: *Energy efficiency in industrial processes*

The purpose of this Innovation Express is to establish cooperation between Danish and German SME's, larger companies, and research establishments within the field of Energy Efficiency in Industrial Processes.

Innovation Express will consist of two two-day visits – one in Germany and one in Denmark. During the visits the delegation will visit industries and see their production, have one on one meetings, and participate in workshops, in order for Danish and German companies can meet and discuss possible ways to cooperate.

The visits will be arranged by VE-Net, The Development Group Intelligent Energy Cost Efficiency, Innovation Centre Denmark in Munich, and the German energy cluster Modell Hohenlohe.

Innovation Express is funded by the Danish Agency for Science, Technology, and Innovation.
